What should you bring?

1. A hungry baby;
2. A few clean diapers and two receiving blankets;
3. If you are supplementing, bring a bottle of expressed milk or formula;
4. If you have a breast pump, please bring that with you; and
5. If you are using a nipple shield, bring that also.

What happens during a typical consultation?

- We will take a brief history and weigh your baby. We will observe a feeding, and assist you with latch and positioning if necessary. We will work to improve your comfort if you are experiencing pain. We will weigh your baby after they nurse to measure their milk intake at the breast. We will come up with a care plan to help you to be successful at home as well!
- It's very important that you bring a hungry baby, so we can observe a full feeding. We suggest starting a feeding about 2 hours prior to your scheduled consultation time, so that your baby is ready for another feeding when you arrive.
- A consultation typically takes 1 – 1.5 hours. A report is sent to your doctor and your baby's doctor.
