What should you bring?

1. A hungry baby.
2. A few clean diapers and two receiving blankets.
3. If you are supplementing or concerned about your milk supply: please bring your breast pump and a bottle of expressed milk or formula.
4. If you are using a nipple shield, bring that also.
5. Please bring the results of your baby's weight checks along with the appropriate dates.

What happens during a typical consultation?

- We will take a brief history and weigh your baby. We will observe a feeding and assist you with latch and positioning if necessary. We will work to improve your comfort if you are experiencing pain. We will weigh your baby after they nurse to measure their milk intake at the breast. We will come up with a care plan to help you to be successful at home as well!
- It's very important that you bring a hungry baby, so we can observe a full feeding. We suggest starting a feeding about 2 hours prior to your scheduled consultation time, so that your baby is ready for another feeding when you arrive. This also applies to pumping. If you are currently pumping, do not pump for 2 hours prior to your visit.
- A consultation typically takes 1 – 1.5 hours. A report is sent to your doctor and your baby's doctor.

Insurance and payment:

The BRC is in-network with Independence Blue Cross (Personal Choice, Keystone Health Plan East, Independence Administrators, AmeriHealth) and Aetna. Please bring your insurance card if you are enrolled in one of these plans.
